

## CME Overnight Repo-Backed Benchmarks IOSCO Compliance Statement

**IOSCO Compliance Statement** 

**CME Group Benchmark Administration Limited** 

Publication Date: June 3rd, 2024

## Introduction

CME Group Benchmark Administration Limited (CBA or the Administrator) has created the CME Overnight Repo-Backed Benchmarks, representing the cost of one-day funding of sovereign securities denominated in Euro, Sterling and Japanese Yen, and issued by the respective governments. The published rates reflect actual transactions executed on BrokerTec Europe Limited, CME Amsterdam B.V., EuroMTS Limited and JBond Totan Securities Co., Ltd..

These Benchmarks are administered and calculated by CBA, authorized and supervised, as a Benchmark Administrator by the UK Financial Conduct Authority (FCA).

CME Inc. is the outsourced Calculation Agent of the benchmark appointed by the Administrator.

## **Regulatory and IOSCO Compliance**

The CME Overnight Repo-Backed Benchmarks are designed on the basis of industry best practices and on the IOSCO Principles for Financial Benchmarks. This will include but not be limited to the creation of an Oversight Committee and a published Methodology. The Index is also subject to a full audit process. Material changes to the Methodology are announced via public consultation.

Capitalised terms not otherwise defined in this document have the meaning given to them in the IOSCO Principles for Financial Benchmarks Final Report of July 2013.

IOSCO	IOSCO Principles - Detailed Guidance	CME Group Benchmark Administration
Principle	Detailed Galdalice	Limited (CBA) Comment
1. Overall	The Administrator should retain primary	CBA is the Administrator for the CME
Responsibility	responsibility for all aspects of the	Overnight Repo-Backed Benchmarks with
of the	Benchmark determination process. For	primary responsibility for all aspects of the
Administrator	example, this includes:	Benchmark determination process.
	a) Development: The definition of the	The CME Overnight Repo-Backed
	Benchmark and Benchmark	Benchmarks Benchmark Methodology has
	Methodology;	been approved by CME Overnight Repo-
		Backed Benchmarks Oversight Committee.  Details of the Methodology are available on
		the CBA website.
	b) Determination and Dissemination:	The Benchmarks are calculated each
	Accurate and timely compilation and	business day and distributed through CME
	publication and distribution of the	Group data services. Subscribers to the
	Benchmark;	benchmark will be notified of any delays of
		its publication.
	c) Operation: Ensuring appropriate	The CME Overnight Repo-Backed
	transparency over significant decisions	Benchmarks is calculated in accordance
	affecting the compilation of the	with the approved Methodology (see 1(a)
	Benchmark and any related determination process, including	above), which includes applicable
	contingency measures in the event of	contingency measures.
	absence of or insufficient inputs, market	
	stress or disruption, failure of critical	
	infrastructure, or other relevant factors;	
	and	
	d) Governance: Establishing credible and	CBA has established an independent
	transparent governance, oversight and	Oversight Committee to review the
	accountability procedures for the	benchmark definition and provides challenge
	Benchmark determination process, including an identifiable oversight	on all aspects of the benchmark determination process. The terms of
	function accountable for the	reference of the Oversight Committee are
	development, issuance and operation of	available on the CBA website.
	the Benchmark.	
2. Oversight of	Where activities relating to the	CME Inc. is the calculation and distribution
Third Parties	Benchmark determination process are	agent of the CME Overnight Repo-Backed
	undertaken by third parties - for example	Benchmarks.
	collection of inputs, publication or where	
	a third party acts as Calculation Agent -	
	the Administrator should maintain	
	appropriate oversight of such third parties. The Administrator (and its	
	oversight function) should consider	
	adopting policies and procedures that:	
	a) Clearly define and substantiate	CBA has in place agreements with CME Inc.
	through appropriate written	for the provision of calculation agent and
	arrangements the roles and obligations	Benchmark dissemination services relating
	of third parties who participate in the	to the CME Overnight Repo-Backed
	Benchmark determination process, as	Benchmarks. Those agreements include
	well as the standards the Administrator	details of required standards and obligations
	expects these third parties to comply	to maintain minimum service levels.
	with; b) Monitor third parties' compliance with	CBA monitors third parties through key
	the standards set out by the	performance indicators and regular
	Administrator;	stakeholder meetings.
-	, talliminou atory	

IOSCO Principle	IOSCO Principles - Detailed Guidance	CME Group Benchmark Administration Limited (CBA) Comment
	c) Make Available to Stakeholders and any relevant Regulatory Authority the identity and roles of third parties who participate in the Benchmark determination process; and	CME Inc. is the calculation agent of the CME Overnight Repo-Backed Benchmarks. CME Inc. is a distribution agent of the Benchmark.
	d) Take reasonable steps, including contingency plans, to avoid undue operational risk related to the participation of third parties in the Benchmark determination process.	CBA has business continuity plans in place for all aspects of the CME Overnight Repo-Backed Benchmarks, including contingency measures for IT system failures and issues associated with dissemination of the Benchmark. The calculation agent agreement with CME Inc. contains provisions designed to mitigate operational risk.
	This Principle does not apply in relation to a third party from whom an Administrator sources data if that third party is a Regulated Market or Exchange.	The CME Overnight Repo-Backed Benchmarks use data sourced from BrokerTec Europe Limited, CME Amsterdam B.V., EuroMTS Limited and JBond Totan Securities Co., Ltd
3. Conflicts of Interest for Administrators	To protect the integrity and independence of Benchmark determinations, Administrators should document, implement and enforce policies and procedures for the identification, disclosure, management, mitigation or avoidance of conflicts of interest. Administrators should review and update their policies and procedures as appropriate.  Administrators should disclose any material conflicts of interest to their users and any relevant Regulatory Authority, if any.  The framework should be appropriately tailored to the level of existing or potential conflicts of interest identified and the risks that the Benchmark poses and should seek to ensure:	CBA has policies and procedures for the avoidance of conflicts of interest in the determination of benchmarks. These policies are approved by the board and periodically reviewed.  All entities within CME Group are required to maintain and operate effective organisational and administrative arrangements with a view to taking all reasonable steps to identify, monitor and manage all conflicts of interest including conflicts between itself and its customers. CBA maintains a stand-alone conflicts of interest register, identifying the inherent conflicts of interest within the firm, while setting out appropriate measures to manage and mitigate those conflicts.  CBA's board members must abide by the CME Group Conflicts of Interest Policy, which sets out requirements governing, among other things, the disclosure of conflicts by board members and the situations in which board members are prohibited from participating in decisions of the board.  CME Group employees are also subject to
		the CME Conflicts of Interest Policy and Personal Trading Policy, Confidentiality and Data Protection Policy and Gifts and Entertainment Policy. CME Group's employment contracts require that

IOSCO Dringinla	IOSCO Principles - Detailed Guidance	CME Group Benchmark Administration
Principle		Limited (CBA) Comment employees comply with all relevant CME Group policies and procedures.
		Any violation of the Conflicts of Interest Policy may result in disciplinary action against the board member or employee.
		The Administrator's Compliance Monitoring team is responsible for ensuring that the Conflicts of Interest Management Policy is adhered to. This is conducted via periodic reviews of business areas/units.
	a) Existing or potential conflicts of interest do not inappropriately influence Benchmark determinations;	CME Group staff involved in the production of benchmarks are prohibited from having direct investment exposure to those benchmarks. Members of the Oversight Committee are required to disclose any conflicts of interest.
	b) Personal interests and connections or business connections do not compromise the Administrator's performance of its functions;	CBA has policies and procedures in place to avoid conflicts of interest. This includes obligations on CME Group staff to avoid and declare conflicts of interest.
	c) Segregation of reporting lines within the Administrator, where appropriate, to clearly define responsibilities and prevent unnecessary or undisclosed conflicts of	CBA is an authorised benchmark administrator, supervised by the FCA (UK) with clear segregation of reporting lines.
	interest or the perception of such conflicts;	As further described below, access to data within CME Group is strictly controlled by the "Data Access Request" process, and data will not be released or shared with a member of staff unless it is required for their role. In combination with the differentiated reporting lines, this provides a strong control framework that prevents conflicts of interest, or the perception of such conflicts.
	d) Adequate supervision and sign-off by authorised or qualified employees prior to releasing Benchmark determinations;	Authorised and qualified staff supervise the process of the release of the Benchmark determinations. Any issues involved in the calculation or dissemination of the Benchmark by CME Inc. are escalated to the relevant manager at CBA.
	e) The confidentiality of data, information and other inputs submitted to, received by or produced by the Administrator, subject to the disclosure obligations of the Administrator;	CME Group implements group-wide policies and procedures to ensure the confidentiality of data and information.
	f) Effective procedures to control the exchange of information between staff engaged in activities involving a risk of conflicts of interest or between staff and third parties, where that information may reasonably affect any Benchmark determinations; and	CME Group staff are subject to mandatory annual compliance training and certification, which includes procedures on control of exchange of information.

IOSCO	IOSCO Principles - Detailed Guidance	CME Group Benchmark Administration
Principle	,	Limited (CBA) Comment
	g) Adequate remuneration policies that ensure all staff who participate in the Benchmark determination are not directly or indirectly rewarded or incentivised by the levels of the Benchmark.	CME Group compensation and remuneration ensures salaries and benefits are not linked to the value of the calculated Benchmarks.
	An Administrator's conflict of interest framework should seek to mitigate existing or potential conflicts created by its ownership structure or control, or due to other interests the Administrator's staff or wider group may have in relation to Benchmark determinations. To this end, the framework should:	CME Group has in place multiple controls that seek to mitigate or control potential conflicts created by its ownership structure. These include the development of a conflicts register identifying potential conflicts and seeking to remove or control those. Above this, CME Group maintains confidentiality and access control policies and controls which are established to permit persons who need to know information to use and have access to it. In particular, CBA operational staff have separate reporting lines to those working within the exchanges/trading venues that supply the transaction data for the benchmark calculation.
		In addition, access and use of CME Group Confidential or Highly Sensitive data is strictly limited to employees that have a business reason to access and/or use the information. If a department, team or employee requires access to CME Group Confidential or CME Group Highly Sensitive data for a new business purpose, requests are submitted through the Data Access Request (DAR) process for review and consideration. More details and examples of data requests that fall into this process can be found in the CME Group Confidentiality and Data Protection Policy which can be found on the CME Group website.
	a) Include measures to avoid, mitigate or disclose conflicts of interest that may exist between its Benchmark determination business (including all staff who perform or otherwise participate in Benchmark production responsibilities), and any other business of the Administrator or any of its affiliates; and	As set out above, CME Group maintains firm wide policies and procedures to mitigate and avoid a conflict of interest.
	b) Provide that an Administrator discloses conflicts of interest arising from the ownership structure or the control of the Administrator to its Stakeholders and any relevant Regulatory Authority in a timely manner.	CBA is supervised by the FCA (UK) and will make available details of its conflict of interest register to its regulatory authority upon request.

IOSCO Principle	IOSCO Principles - Detailed Guidance	CME Group Benchmark Administration Limited (CBA) Comment
4. Control Framework for Administrators	An Administrator should implement an appropriate control framework for the process of determining and distributing the Benchmark. The control framework should be appropriately tailored to the materiality of the potential or existing conflicts of interest identified, the extent of the use of discretion in the Benchmark setting process and to the nature of Benchmark inputs and outputs. The control framework should be documented and available to relevant Regulatory Authorities, if any. A summary of its main features should be Published or Made Available to Stakeholders.	CBA has implemented a Risk and Control Framework consistent with CME Group policies and procedures, with certain details outlined below.
	This control framework should be reviewed periodically and updated as appropriate. The framework should address the following areas:	
	a) Conflicts of interest in line with     Principle 3 on conflicts of interests;	CBA has implemented a conflicts of interest policy in line with IOSCO Principle 3. See detail above.
	b) Integrity and quality of Benchmark determination: i. Arrangements to ensure that the quality and integrity of Benchmarks is maintained, in line with principles 6 to 15 on the quality of the Benchmark and Methodology;	i. The CME Overnight Repo-Backed Benchmarks is calculated in accordance with the approved Methodology. Any deviation from the approved Methodology requires additional review by the Oversight Committee.
	ii. Arrangements to promote the integrity of Benchmark inputs, including adequate due diligence on input sources;  iii. Arrangements to ensure accountability	ii. Input data to the Benchmark calculation are actual one-day repo transactions executed on trading venues operated by BrokerTec Europe Limited, CME Amsterdam B.V., EuroMTS Limited and JBond Totan Securities Co.,.
	and complaints mechanisms are effective, in line with principles 16 to 19; and  iv. Providing robust infrastructure, policies and procedures for the management of risk, including operational risk.	iii. CME Group has in place a complaints procedure which is published on the CME Group website. The procedures take account of the particular requirements for a Benchmark Administrator to receive and deal appropriately with complaints that relate to the calculation of the benchmark. CBA is subject to audit reviews and has regulatory obligations, aligned with Principles 16 to 19.
		iv. CBA has implemented a Risk and Control Framework for the management of its benchmarks, which lists categories of risk and controls to mitigate against them. This is part of the CME Group Enterprise Risk framework.

IOSCO Principle	IOSCO Principles - Detailed Guidance	CME Group Benchmark Administration Limited (CBA) Comment
•	c) Whistleblowing mechanism: Administrators should establish an effective whistleblowing mechanism to facilitate early awareness of any potential misconduct or irregularities that may	CME Group maintains internal policies and procedures for the reporting of actual or perceived misconduct.  In addition, CBA allows for external
	arise. This mechanism should allow for external reporting of such cases where appropriate.	whistleblowing through international compliance@cmegroup.com.  All complaints related to CBA are reviewed
		by Compliance and reported to Oversight Committee.
	d) Expertise: i. Ensuring Benchmark determinations are made by personnel who possess the relevant levels of expertise, with a process for periodic review of their competence; and	i. Calculation of Benchmarks are performed by personnel who possess the relevant levels of experience and expertise, including by performing similar functions in relation to other Benchmarks and operating CME's market data business. CME Group employs an annual performance review policy.
	ii. Staff training, including ethics and conflicts of interest training, and continuity and succession planning for personnel.	ii. CME Group requires staff to undergo mandatory annual compliance training, including conflicts of interest and ethics.
	Where a Benchmark is based on Submissions: Administrators should promote the integrity of inputs by:	N/A – Submissions are not used in the calculation of the CME Overnight Repo- Backed Benchmarks.
	a) Ensuring as far as possible that the Submitters comprise an appropriately representative group of participants taking into consideration the underlying Interest measured by the Benchmark;	N/A – Submissions are not used in the calculation of the CME Overnight Repo- Backed Benchmarks.
	b) Employing a system of appropriate measures so that, to the extent possible, Submitters comply with the Submission guidelines, as defined in the Submitter Code of Conduct and the Administrators' applicable quality and integrity standards for Submission;	N/A – Submissions are not used in the calculation of the CME Overnight Repo-Backed Benchmarks.
	c) Specifying how frequently Submissions should be made and specifying that inputs or Submissions should be made for every Benchmark determination; and	N/A – Submissions are not used in the calculation of the CME Overnight Repo-Backed Benchmarks.
	d) Establishing and employing measures to effectively monitor and scrutinise inputs or Submissions. This should include pre-compilation or pre-publication monitoring to identify and avoid errors in inputs or Submissions, as well as <i>ex-post</i> analysis of trends and outliers.	N/A – Submissions are not used in the calculation of the CME Overnight Repo-Backed Benchmarks.

IOSCO Principle	IOSCO Principles - Detailed Guidance	CME Group Benchmark Administration Limited (CBA) Comment
5. Internal Oversight	Administrators should establish an oversight function to review and provide challenge on all aspects of the Benchmark determination process. This should include consideration of the features and intended, expected or known usage of the Benchmark and the materiality of existing or potential conflicts of interest identified.	A CME Overnight Repo-Backed Benchmarks Oversight Committee has been established to provide challenge on all aspects of the benchmark determination process.  Terms of Reference for the committee are in place defining committee membership and responsibilities. Oversight Committee members are required to provide conflicts of interest disclosures.
	The oversight function should be carried out either by a separate committee, or other appropriate governance arrangements. The oversight function and its composition should be appropriate to provide effective scrutiny of the Administrator. Such oversight function could consider groups of Benchmarks by type or asset class, provided that it otherwise complies with this Principle.	The CME Overnight Repo-Backed Benchmarks Oversight Committee comprises industry experts with the appropriate expertise to provide challenge and effective scrutiny of the Administrator, such as market expertise, control and risk expertise, operational expertise, benchmark and regulation expertise, general financial market expertise, or legal and compliance expertise.
	An Administrator should develop and maintain robust procedures regarding its oversight function, which should be documented and available to relevant Regulatory Authorities, if any. The main features of the procedures should be Made Available to Stakeholders. These procedures should include:	CBA has established an independent Oversight Committee for the CME Overnight Repo-Backed Benchmarks.
	a) The terms of reference of the oversight function;	The Oversight Committee has clearly defined Terms of Reference, which can be Made Available to Stakeholders upon request.
	b) Criteria to select members of the oversight function;	The Oversight Committee membership selection is outlined in the Oversight Committee Terms of Reference.
	c) The summary details of membership of any committee or arrangement charged with the oversight function, along with any declarations of conflicts of interest and processes for election, nomination or removal and replacement of committee members.	The process for the nomination, removal and replacement of committee members is outlined in the Terms of Reference. A conflicts of interest register is maintained for members of the Oversight Committee.

IOSCO Principle	IOSCO Principles - Detailed Guidance	CME Group Benchmark Administration Limited (CBA) Comment
Principie	The responsibilities of the oversight function include:  a) Oversight of the Benchmark design:	i. The Oversight Committee will review the
	i. Periodic review of the definition of the Benchmark and its Methodology;  ii. Taking measures to remain informed about issues and risks to the Benchmark, as well as commissioning external reviews of the Benchmark (as appropriate);  iii. Overseeing any changes to the Benchmark Methodology, including assessing whether the Methodology continues to appropriately measure the underlying Interest, reviewing proposed and implemented changes to the Methodology, and authorising or requesting the Administrator to undertake a consultation with Stakeholders where known or its Subscribers on such changes as per Principle 12; and  iv. Reviewing and approving procedures	ii. General issues and risks to the Benchmark will be escalated, as appropriate, to the Oversight Committee and CBA board for discussion and review. Meetings of the Oversight Committee and the CBA board involve presentations on the performance of the Benchmark. In exercising its duties as an oversight function, CBA will provide all necessary documents and information to those governance bodies. The CBA board can request external review as appropriate and will be subject to internal audit reviews on a regular basis.  iii. The Oversight Committee will review any changes to the Benchmark Methodology. In addition, the annual review of the Methodology ensures the continued integrity of the Benchmark determinations. Where appropriate, the Oversight Committee may request the Administrator to consult with the
	for termination of the Benchmark, including guidelines that set out how the Administrator should consult with Stakeholders about such cessation.	market on material changes to the Benchmark Methodology.  iv. CBA has in place, in the Methodology document, procedures (including consultation with Stakeholders) that address the possible cessation of the Benchmark due to conditions resulting in the Benchmark no longer representing its intended interest.

IOSCO Principle	IOSCO Principles - Detailed Guidance	CME Group Benchmark Administration Limited (CBA) Comment
·	b) Oversight of the integrity of Benchmark determination and control framework: i. Overseeing the management and operation of the Benchmark, including activities related to Benchmark determination undertaken by a third party;	CBA's control framework encompasses: i. Service Level Agreements to maintain appropriate oversight of the CME Inc. input data collection, Calculation Agent and publication and distribution services. ii. The review of audit findings and status of any required remedial actions.
	ii. Considering the results of internal and external audits, and following up on the implementation of remedial actions highlighted in the results of these audits; and	iii. The review and approval of non-standard procedures used in the Benchmark determination process, including the use of Expert Judgement.
	iii. Overseeing any exercise of Expert Judgment by the Administrator and ensuring Published Methodologies have been followed.	
	Where conflicts of interests may arise in the Administrator due to its ownership structures or controlling interests, or due to other activities conducted by any entity owning or controlling the Administrator or by the Administrator or any of its affiliates: the Administrator should establish an independent oversight function which includes a balanced representation of a range of Stakeholders where known, Subscribers and Submitters, which is chosen to counterbalance the relevant conflict of interest.	CBA has established an independent Oversight Committee consisting of industry experts.
	Where a Benchmark is based on Submissions: the oversight function should provide suitable oversight and challenge of the Submissions by:	N/A – Submissions are not used in the calculation of the CME Overnight Repo-Backed Benchmarks.
	a) Overseeing and challenging the scrutiny and monitoring of inputs or Submissions by the Administrator. This could include regular discussions of inputs or Submission patterns, defining parameters against which inputs or Submissions can be analysed, or querying the role of the Administrator in challenging or sampling unusual inputs or Submissions;	N/A – Submissions are not used in the calculation of the CME Overnight Repo-Backed Benchmarks.
	b) Overseeing the Code of Conduct for Submitters;	N/A – Submissions are not used in the calculation of the CME Overnight Repo-Backed Benchmarks.
	c) Establishing effective arrangements to address breaches of the Code of Conduct for Submitters; and	N/A – Submissions are not used in the calculation of the CME Overnight Repo- Backed Benchmarks.

IOSCO Principle	IOSCO Principles - Detailed Guidance	CME Group Benchmark Administration
Principle	d) Establishing measures to detect potential anomalous or suspicious Submissions and in case of suspicious activities, to report them, as well as any misconduct by Submitters of which it becomes aware to the relevant	Limited (CBA) Comment  N/A – Submissions are not used in the calculation of the CME Overnight Repo-Backed Benchmarks.
6. Benchmark Design	Regulatory Authorities, if any.  The design of the Benchmark should seek to achieve, and result in an accurate and reliable representation of the economic realities of the Interest it seeks to measure, and eliminate factors that might result in a distortion of the price, rate, index or value of the Benchmark.	The CME Overnight Repo-Backed Benchmarks represent the cost of funding of sovereign securities denominated in Euro, Sterling and Japanese Yen, and issued by the respective governments.
	Benchmark design should take into account the following generic non-exclusive features, and other factors should be considered, as appropriate to the particular Interest:	The CME Overnight Repo-Backed Benchmarks have been designed to ensure the Benchmark is representative of its underlying interest and remains robust.
	a) Adequacy of the sample used to represent the Interest;	The CME Overnight Repo-Backed Benchmarks have been designed to ensure that the Benchmark Family is representative of its underlying interest and that it remains robust.
		The RFR EUR, RFR Sterling and RFR JBOND are calculated once per day.
		The published rates for RFR Euro and RFR Sterling reflect one-day repo transactions with settlement same day as benchmark calculation.
		The published rate for RFR JBOND reflects the one-day repo transactions traded on the same day as benchmark calculation.
	b) Size and liquidity of the relevant market (for example whether there is sufficient trading to provide observable, transparent pricing);	The CME Overnight Repo-Backed Benchmarks are based on one-day repo transactions of sovereign securities denominated in Euro, Sterling and Japanese Yen, settled the day of benchmark calculation. The CME Overnight Repo- Backed Benchmarks methodology contains details of the repo transaction selection and filtering approach. There is sufficient liquidity in one-day repo transactions.
	c) Relative size of the underlying market in relation to the volume of trading in the market that references the Benchmark;	The average daily volume for RFR Euro is >€350bn.  RFR Euro Benchmarks are used to settle CME's RFR Futures. The current open

IOSCO Dringinla	IOSCO Principles - Detailed Guidance	CME Group Benchmark Administration
8. Hierarchy of Data Inputs	means to construct Benchmarks where anchored in an observable market consisting of <i>Bona Fide</i> , Arms-Length transactions.  This Principle also recognizes that various indices may be designed to measure or reflect the performance of a rule-based investment strategy, the volatility or behaviour of an index or market or other aspects of an active market. Principle 7 does not preclude the use of non-transactional data for such indices that are not designed to represent transactions and where the nature of the index is such that non-transactional data is used to reflect what the index is designed to measure. For example, certain volatility indices, which are designed to measure the expected volatility of an index of securities transactions, rely on non-transactional data, but the data is derived from and thus "anchored" in an actual functioning securities or options market.  An Administrator should establish and Publish or Make Available clear guidelines regarding the hierarchy of data inputs and exercise of Expert Judgment used for the determination of	The published Methodology provides details the hierarchy of data inputs used in the determination of the CME Overnight Repo-Backed Benchmarks.
	Benchmarks. In general, the hierarchy of data inputs should include:  a) Where a Benchmark is dependent upon Submissions, the Submitters' own concluded arms-length transactions in the underlying interest or related markets; b) Reported or observed concluded Arm's-length Transactions in the underlying interest;	N/A – Submissions are not used in the calculation of the CME Overnight Repo-Backed Benchmarks.  Data inputs used in the calculation of the CME Overnight Repo-Backed Benchmarks includes concluded Arm's-length Transactions.
	c) Reported or observed concluded Arm's-length Transactions in related markets;	N/A – Reported or observed transactions in related markets are not used in the calculation of the CME Overnight Repo-Backed Benchmarks.
	d) Firm (executable) bids and offers; and	N/A – Firm bids and offers are not used in the calculation of CME Overnight Repo-Backed Benchmarks.
	e) Other market information or Expert Judgments.	N/A – Expert judgement and other market information is not used in the calculation of the CME Overnight Repo-Backed Benchmarks.
	Provided that the Data Sufficiency Principle is met (i.e., an active market exists), this Principle is not intended to	The CME Overnight Repo-Backed Benchmarks Benchmark Methodology details the Administrator's approach to

IOSCO	IOSCO Principles - Detailed Guidance	CME Group Benchmark Administration
Principle		Limited (CBA) Comment
	require changes to the design of the Methodology. The Administrator also should periodically review whether the Interest has diminished or is nonfunctioning such that it can no longer function as the basis for a credible Benchmark.	accordance with its terms of reference, to ensure its credibility.
	The Administrator should Publish or Make Available a summary of such reviews where material revisions have been made to a Benchmark, including the rationale for the revisions.	Changes to the CME Overnight Repo- Backed Benchmarks Benchmark Methodology will be reviewed by the Oversight Committee and as appropriate may request the Administrator to consult with relevant Stakeholders and the wider market on any material changes.
11.Content of the Methodology	The Administrator should document and Publish or Make Available the Methodology used to make Benchmark determinations. The Administrator should provide the rationale for adopting a particular Methodology. The Published Methodology should provide sufficient detail to allow Stakeholders to understand how the Benchmark is derived and to assess its representativeness, its relevance to particular Stakeholders, and its appropriateness as a reference for financial instruments.	CBA will publish and make available the Methodology of the CME Overnight Repo-Backed Benchmarks.
	At a minimum, the Methodology should contain:	
	a) Definitions of key terms;	Key terms are defined in the published Methodology.
	b) All criteria and procedures used to develop the Benchmark, including input selection, the mix of inputs used to derive the Benchmark, the guidelines that control the exercise of Expert Judgment by the Administrator, priority given to certain data types, minimum data needed to determine a Benchmark, and any models or extrapolation methods;	The criteria and hierarchy of inputs are described in the published Methodology document.
	c) Procedures and practices designed to promote consistency in the exercise of Expert Judgment between Benchmark determinations;	N/A - Expert Judgement is not used in the calculation of the CME Overnight Repo-Backed Benchmarks.
	d) The procedures which govern Benchmark determination in periods of market stress or disruption, or periods where data sources may be absent (e.g., theoretical estimation models);	The procedures governing the Benchmark determinations in times of stress and market disruption are included in the published Methodology.
-	e) The procedures for dealing with error reports, including when a revision of a Benchmark would be applicable;	Error reporting and republication procedures are included in the published Methodology document.

IOSCO Principle	IOSCO Principles - Detailed Guidance	CME Group Benchmark Administration Limited (CBA) Comment
	f) Information regarding the frequency for internal reviews and approvals of the Methodology. Where applicable, the Published Methodologies should also include information regarding the procedures and frequency for external review of the Methodology;	The frequency of review is included in the published Methodology. Any required changes to the Methodology will be in accordance with Principle 12.
	g) The circumstances and procedures under which the Administrator will consult with Stakeholders, as appropriate; and	The published Methodology document details the circumstances under which CBA will consult with Stakeholders and the market.
	h) The identification of potential limitations of a Benchmark, including its operation in illiquid or fragmented markets and the possible concentration of inputs.	The published Methodology details how the CME Overnight Repo-Backed Benchmarks shall be determined in illiquid markets.
	Where a Benchmark is based on Submissions, the additional Principle also applies:	N/A – Submissions are not used in the calculation of the CME Overnight Repo-Backed Benchmarks.
	The Administrator should clearly establish criteria for including and excluding Submitters. The criteria should consider any issues arising from the location of the Submitter, if in a different jurisdiction to the Administrator. These criteria should be available to any relevant Regulatory Authorities, if any, and Published or Made Available to Stakeholders. Any provisions related to changes in composition, including notice periods should be made clear.	N/A – Submissions are not used in the calculation of the CME Overnight Repo-Backed Benchmarks.
12.Changes to the Methodology	An Administrator should Publish or Make Available the rationale of any proposed material change in its Methodology, and procedures for making such changes. These procedures should clearly define what constitutes a material change, and the method and timing for consulting or notifying Subscribers (and other Stakeholders where appropriate, taking into account the breadth and depth of the Benchmark's use) of changes.	CBA will consult with Stakeholders and the market with regards to material changes to the CME Overnight Repo-Backed Benchmarks Benchmark Methodology.
	Those procedures should be consistent with the overriding objective that an Administrator must ensure the continued integrity of its Benchmark determinations. When changes are proposed, the Administrator should specify exactly what these changes entail and when they are intended to apply.	The CME Overnight Repo-Backed Benchmarks Oversight Committee periodically reviews the Methodology to ensure it continues to represent its underlying interest. Any changes will be specified and their implementation timeline explained.
	The Administrator should specify how changes to the Methodology will be scrutinised, by the oversight function.	CBA may seek to revise the CME Overnight Repo-Backed Benchmarks Benchmark Methodology. Any changes to the

		Administrator to the Oversight Committee for its consideration. Feedback to a consultation is considered confidential, however the Administrator will publish an anonymized summary with its conclusions, as soon as it is practical to do so, but before implementation of any changes.
	These written policies and procedures should be Published or Made Available to all Stakeholders.	The Benchmark Methodology describes the procedures required for the cessation of the Benchmark.
	Administrators should encourage Subscribers and other Stakeholders who have financial instruments that reference a Benchmark to take steps to make sure that:  a) Contracts or other financial instruments that reference a Benchmark, have robust fall-back provisions in the event of material changes to, or cessation of, the referenced Benchmark; and	The Benchmark Methodology recommends users of the Benchmark ensure they have adequate fallback policies and procedures in the event of the Benchmark losing its representativeness, due to changes in the Regulatory Framework and/or market conditions.
	b) Stakeholders are aware of the possibility that various factors, including external factors beyond the control of the Administrator, might necessitate material changes to a Benchmark.	
	Administrators' written policies and procedures to address the possibility of Benchmark cessation could include the following factors, if determined to be reasonable and appropriate by the Administrator:	The Benchmark Methodology requires a 6 (six) month transition period, in the occurrence of cessation of the benchmark. Such transition period is designed to ensure that the benchmark continues to operate in parallel to any substitute.
	a) Criteria to guide the selection of a credible, alternative Benchmark such as, but not limited to, criteria that seek to match to the extent practicable the existing Benchmark's characteristics (e.g., credit quality, maturities and liquidity of the alternative market), differentials between Benchmarks, the extent to which an alternative Benchmark meets the asset/liability needs of Stakeholders, whether the revised	During such transition, the Administrator is required, by the Benchmark Methodology, to explore alternative arrangements and advise Stakeholders, including Regulators and endusers, about their findings.  The Administrator will endeavour to identify alternative benchmarks; however, this might not always be possible due to Regulations or market conditions.
	Benchmark is investable, the availability of transparent transaction data, the impact on Stakeholders and impact of existing legislation; b) The practicality of maintaining parallel Benchmarks (e.g., where feasible, maintain the existing Benchmark for a defined period of time to permit existing contracts and financial instruments to mature and publish a new Benchmark) in	

IOSCO	IOSCO Principles - Detailed Guidance	CME Group Benchmark Administration
Principle	order to accommodate as arderly	Limited (CBA) Comment
	order to accommodate an orderly transition to a new Benchmark;	
	c) The procedures that the Administrator	
	would follow in the event that a suitable	
	alternative cannot be identified;	
	d) In the case of a Benchmark or a tenor	
	of a Benchmark that will be discontinued	
	completely, the policy defining the period	
	of time in which the Benchmark will	
	continue to be produced in order to	
	permit existing contracts to migrate to an	
	alternative Benchmark if necessary; and	
	e) The process by which the	
	Administrator will engage Stakeholders	
	and relevant Market and National	
	Authorities, as appropriate, in the	
	process for selecting and moving	
	towards an alternative Benchmark, including the timeframe for any such	
	action commensurate with the tenors of	
	the financial instruments referencing the	
	Benchmarks and the adequacy of notice	
	that will be provided to Stakeholders.	
14.Submitter	The Administrator should develop	N/A – The CME Overnight Repo-Backed
Code of	guidelines for Submitters ("Submitter	Benchmarks is not based on Submissions
Conduct	Code of Conduct"), which should be	
	available to any relevant Regulatory	
	Authorities, if any and Published or Made

	controls should address the process for selecting the source, collecting the data and protecting the integrity and confidentiality of the data. Where Administrators receive data from employees of the Front Office Function, the Administrator should seek corroborating data from other sources.	transmission of input data to CBA, and contains an obligation to comply with protocols in relation to the same that protect the integrity and confidentiality of the input data.
16.Complaints Procedures	The Administrator should establish and Publish or Make Available a written complaints procedures policy, by which Stakeholders may submit complaints including concerning whether a specific Benchmark determination is representative of the underlying Interest it seeks to measure, applications of the Methodology in relation to a specific Benchmark determination(s) and other Administrator decisions in relation to a Benchmark determination.  The complaints procedures policy should:	CBA has in place policies and procedures for Stakeholders to submit complaints on all aspects of the Benchmark determination process. These policies are available on the CME Group website
	a) Permit complaints to be submitted through a user-friendly complaints process such as an electronic Submission process;	CBA has created an email address (internationalcompliance@cmegroup.com) to receive and respond to any complaints.
	b) Contain procedures for receiving and investigating a complaint made about the Administrator's Benchmark determination process on a timely and fair basis by personnel who are independent of any personnel who may be or may have been involved in the subject of the complaint, advising the complainant and other relevant parties of the outcome of its investigation within a reasonable period and retaining all records concerning complaints;	All complaints received will be investigated by personnel who are independent of any personnel who may be, or may have been involved in the subject of the complaint. Any outcomes are reported back to the complainant Stakeholder within a reasonable timeframe (proportionate to the nature of the complaint). All records concerning complaints are kept for a period of 5 years.
	c) Contain a process for escalating complaints, as appropriate, to the Administrator's governance body; and d) Require all documents relating to a complaint, including those submitted by the complainant as well as the Administrator's own record, to be retained for a minimum of five years, subject to applicable national legal or regulatory requirements.	Complaints will also be reported to the Oversight Committee and CBA board.  CME Group maintains a record of all complaints for 5 years in accordance with its regulatory obligations.
	Disputes about a Benchmarking determination, which are not formal complaints, should be resolved by the Administrator by reference to its standard appropriate procedures. If a complaint results in a change in a Benchmark determination, that should be Published	Changes to the CME Overnight Repo- Backed Benchmarks Benchmark Methodology will be made in accordance with Principle 12.

Principle	or Made Available to Subscribers and	Limited (CBA) Comment
	Published or Made Available to	
	Stakeholders as soon as possible as set out in the Methodology.	
17.Audits	The Administrator should appoint an independent internal or external auditor with appropriate experience and capability to periodically review and report on the Administrator's adherence to its stated criteria and with the Principles. The frequency of audits should be proportionate to the size and complexity of the Administrator's operations.	CBA is authorised and supervised by the FCA (UK) and undergoes a regular internal audit in accordance with its regulatory requirements. External audits can be requested at any time by the CBA Board, the Oversight Committee or the internal audit function.
	Where appropriate to the level of existing or potential conflicts of interest identified by the Administrator (except for Benchmarks that are otherwise regulated or supervised by a National Authority other than a relevant Regulatory Authority), an Administrator should appoint an independent external auditor with appropriate experience and capability to periodically review and report on the Administrator's adherence to its stated Methodology. The frequency of audits should be proportionate to the size and complexity of the Administrator's Benchmark operations and the breadth and depth of Benchmark use by Stakeholders.	
18.Audit Trail	Written records should be retained by the Administrator for five years, subject to applicable national legal or regulatory requirements on:	CME Group retains all records below for a minimum of 5 years.
	a) All market data, Submissions and any other data and information sources relied upon for Benchmark determination;	All input data used in the calculation of the CME Overnight Repo-Backed Benchmarks are included in the record retention policy.
	b) The exercise of Expert Judgment made by the Administrator in reaching a Benchmark determination;	N/A – Expert Judgement is not used to determine the CME Overnight Repo-Backed Benchmarks.
	c) Other changes in or deviations from standard procedures and Methodologies, including those made during periods of market stress or disruption;	Any deviations from standard procedures due to market stress or disruption will be logged and included in the retention policy.
	d) The identity of each person involved in producing a Benchmark determination; and	The identity of individuals responsible for the calculation of the CME Overnight Repo-Backed Benchmarks are logged and included in the record retention policy.
	e) Any queries and responses relating to data inputs.	All queries and responses will be logged and included in the record retention policy.
	If these records are held by a Regulated Market or Exchange the Administrator
